

RESUME

FOREWARD

Ravi has worked in the film and photographic industry for +12 years, primarily as a professional photographer and more recently as a DoP.

PHILOSOPHY

As a photographer I pursue my creative output with equal measure of enthusiasm and innovation. It is rare occasion when 'the moment' is delivered to my lens without deliberate crafting, timing and anticipation. And if these moments have taught me one thing, it would be true value of communication and trust.

Functioning on set with cast, crew and other creatives, has opened me up to a world of collaboration, without which insightful and impactful imagery would not be possible.
